

1. The Theme, Issues Addressed and Study Objectives.	21
Statement of the Study Theme	
2. Data Sources, Sampling Methodology, and Definition and Measurement of Concepts	27
Data Sources: Historical Perspective	
Sampling Methodology and Sample Structure	
Concepts and Measurement	
3. Asset Portfolio Analysis: Structure, Compositional Shifts and Growth	33
Cross-Country Household Asset Portfolio Choices:	
Concepts and Evidences	
Aggregative and Disaggregative Analysis of Assets Structure	
4. Household Liability Analysis: Debt Portfolio and Asset-Debt Relations	73
Agency-wise Composition of Household Liability	
Component Analysis of Loan Availment	
Debt-Asset Ratio Analysis	
Financial Inclusion: Logistic Regression Analysis	
Debt-Asset Ratio—Explaining Variations: Aggregative Results	
Debt-Asset Ratio—Explaining Variations: Disaggregative Results	

Some Credit-Related Empirical Evidences

Asset Portfolio Distribution and Credit Availment: Polynomial Regression Results

Farm Business Capital Asset Build-up and Availment of Institutional and Non-institutional Loan

- 5. Capital Expenditure: Structure, Growth and Determinants115**
Structure of Expenditure on Farm Capital and Non-farm Capital Assets
Growth Rate Analysis of Capital Expenditure
Fixed Capital Expenditure Pattern in Cultivator Households
Asset Acquisition and Depletion Analysis
Capital Expenditure: Debt Relations
Determinants of Total Capital Expenditure
- 6. NCAER Data Based Analysis of Asset: Liability Portfolio, Financial Inclusion and Capital Expenditure153**
PART A: ANALYSIS OF RESULTS: 1998-99
Composition of Asset Portfolio
Compositional Analysis of Liability Portfolio
Relationship between Credit Propensity and Share of Assets: 1998-99
Determinants of Financial Inclusion/Exclusion
Aggregative and Disaggregative Analysis of Capital Expenditure Pattern
Determinants of Capital Expenditure
PART B: ANALYSIS OF RESULTS: 2005-06
Composition of Asset Portfolio
Determinants of Non-farm Business Assets
Compositional Analysis of Liability Portfolio
Relationship between Credit Propensity and Share of Assets: 2005-06
Determinants of Financial Inclusion/Exclusion
Capital Expenditure Pattern and Determinants
Major Inferences Derived
- 7. Major Inferences and Policy Directions for Asset Build-up193**
Objectives of the Study
Data Base on Assets, Liabilities and Capital Expenditure
Household Asset Portfolio Analysis: Major Inferences and Policy Directions
Household Liability Analysis: Major Inferences and Policy Directions
Loan Availment Components
Structure of Capital Expenditure, Growth and Determinants: Major Inferences
Portfolio Analysis: Major Contrasting Inferences between Small and Large Farms
